

THOMAS
& FRIENDS

Good Night, Thomas

10
Thomas sounds
including
"Chugga-Chugga
Snooze Snooze"

The sun was setting
on Sodor. Thomas
and his friends had
a very busy day!

Great teamwork today, everyone!
Now, let's race home. Last one there's
a rusted rail spike!

When the engines got home, the sky was dark and the stars were twinkling. Gordon was there to greet them.

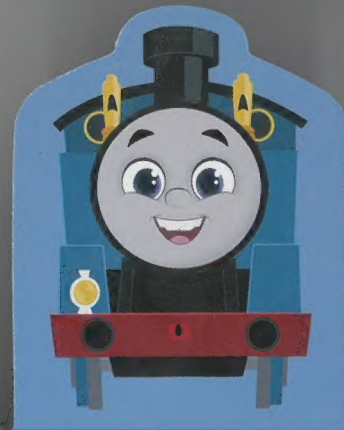

It's time to get some sleep so you'll have energy tomorrow.

Will you please tell us a bedtime story?

We're not tired at all!

Tell the story
about Thomas and me
getting stuck in the
mud at night!

We were helping get ready
for a ribbon-cutting ceremony
when the wind blew the
ribbon away!

We found the ribbon, but we
also found mud! The tracks
weren't finished yet!

What can we
do stuck in the mud
all night?

What's
that sound?

Crickets were hopping
and chirping all
around us in a
field of flowers!

What are those
twinkling things?

Fireflies sparkled
in the field, like
stars in the sky.

The night was magical,
even though we were
stuck in the mud!

Or you could
tell the story about
my sheep sleepover —
my sheepover!

One cold, winter night,
a little lamb showed
up at Tidmouth Sheds.

She snuggled up and spent
the night with us.

The next day, I carried
her back to her farm.

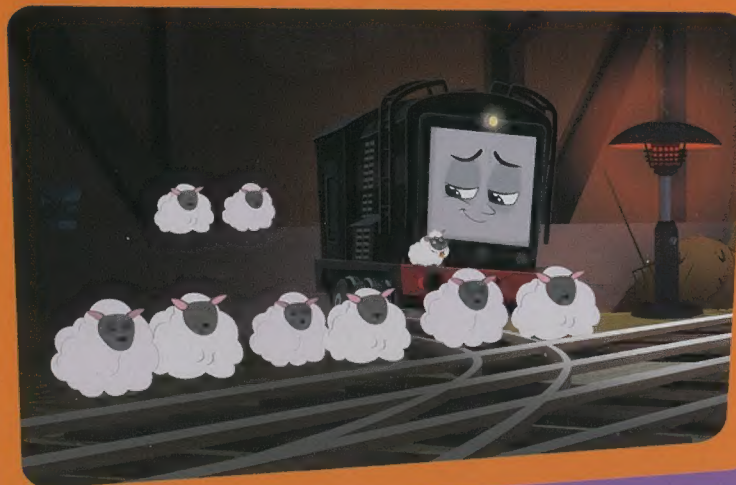

But that night, she came back — with her whole flock! Why did they all want to have a sleepover?

Uh-oh, I forgot to deliver the new heat lamp for the sheep's barn!

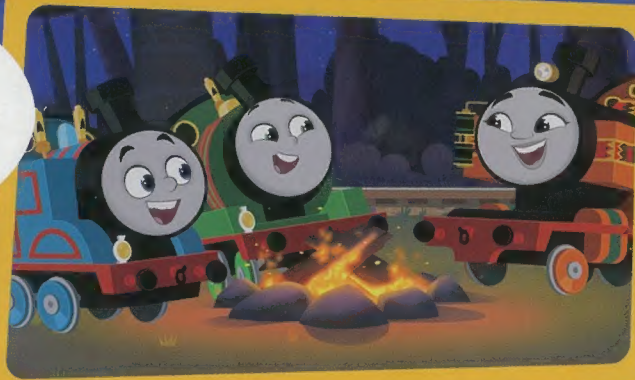

We had one more sleepover — but this time in the barn, warm and toasty with the new heater.

I'd rather hear
the story about our
campout in the woods.

We were making an
overnight delivery
and had to spend the
night in the forest.

But when it was time to
go to sleep, all the strange
noises kept Percy awake!

What
was that?

I said that the owl sounded like Gordon,
"Who-who moved my cargo?" We all laughed
and Percy felt better.
Then we looked at all the stars in the sky.

There's Train-us,
Enginei, and the
Little Steamer.

I think you mean
Taurus, Gemini, and
the Little Dipper.

Camping out
in the woods was
a little scary at first,
but now it's a lot of fun!

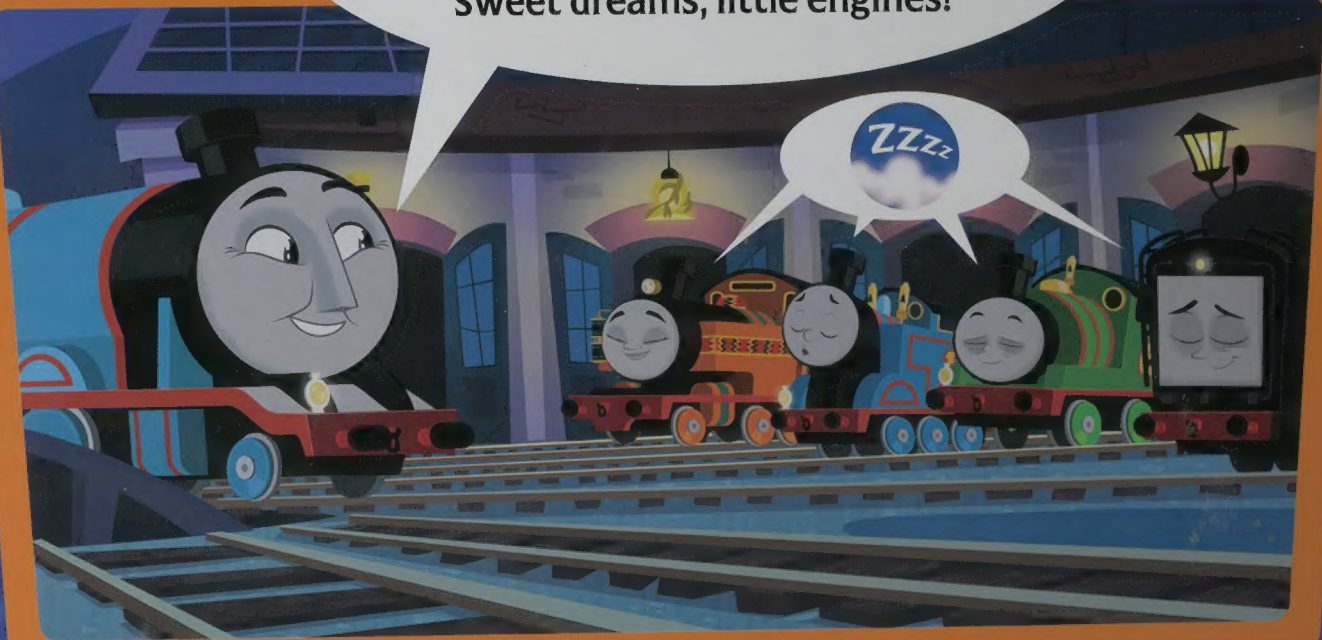

Gordon, tell the story about
when I had to deliver two snoozing
coach cars to the harbor without waking
them up. And I sang them a lullaby ...

Chugga-chugga, snooze snooze,
Little train so sweet.

Chugga-chugga, snooze snooze,
Rest your wheels and go to sleep.

Yes, yes. I'll tell all of
those stories... but on another night
when you are all awake to hear them.
Sweet dreams, little engines!

Chugga-chugga, snooze snooze,
It's such a lovely sight.
Chugga-chugga, snooze snooze,
When a sleeping train goes night-night.

**THOMAS
& FRIENDS**

Settle in for the night with Thomas
and friends as they hear a bedtime story.
But what story should they hear?

"Chugga-chugga
woo-hoo!"

**10
Thomas
sounds!**

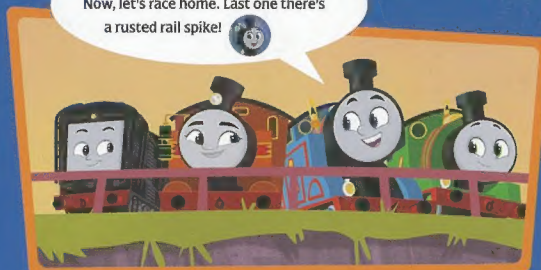

3 replaceable AG-10 button
cell batteries included.
This product contains a
button battery. If swallowed,
it could cause severe injury
or death in just 2 hours.
Seek medical attention
immediately.

Instructions for Battery Replacement

A child should never use this product unless the battery compartment cover has been properly secured. Only an adult should replace batteries. Use a Phillips screwdriver to remove the screw. Open the battery compartment cover. Remove old batteries and dispose of immediately.

Do not dispose of batteries in fire; batteries may explode or leak. Install new batteries with the plus (+) sign facing up. Close the cover and secure it with the screw. Do not mix old and new batteries. Do not mix alkaline, standard (carbon-zinc), or rechargeable batteries. Do not recharge non-rechargeable batteries. For electronic toys using rechargeable batteries, the batteries should be charged under adult supervision. If batteries are swallowed, in the USA, promptly see a doctor and have the doctor phone 1-202-625-3333 collect. In other countries, have the doctor call your local poison control center. This product uses three AG-10 button cell batteries (3 x 1.5V = 4.5V). Use batteries of the same or equivalent type as recommended. The supply terminals are not to be short-circuited. Batteries should be changed when sounds mix, distort, or become otherwise unintelligible as batteries weaken. The electrostatic discharge may interfere with the sound module. If this occurs, please simply restart the sound module by pressing any key. Exhausted batteries are to be removed from the product. Remove batteries if product is to be left unused for a long time. Always replace the whole set of batteries at one time.

1. WARNING - KEEP BATTERIES OUT OF REACH OF CHILDREN 2. Swallowing may lead to serious injury or death in as little as 2 hours, due to chemical burns and potential perforation of the esophagus. 3. If you think batteries might have been swallowed or placed inside any part of the body, seek immediate medical attention. 4. Examine devices and make sure the battery compartment is correctly secured, e.g. that the screw or other mechanical fastener is tightened. Do not use if compartment is not secure. 5. Dispose of used batteries immediately. Keep new and used batteries away from children.

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: Reorient or relocate the receiving antenna. Increase the separation between the equipment and receiver. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. Consult the dealer or an experienced radio/TV technician for help.

In Europe, the dustbin symbol indicates that batteries, rechargeable batteries, button cells, battery packs, and similar materials must not be discarded in household waste. Batteries containing hazardous substances are harmful to the environment and to health. Please help to protect the environment from health risks by telling your children to dispose of batteries properly and by taking batteries to local collection points. Batteries handled in this manner are safely recycled.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. This Class B digital apparatus complies with Canadian CAN ICES-3(B). Cet appareil numérique de la classe B est conforme à la norme NMB-3(B) du Canada.
